

Noise Reduction System

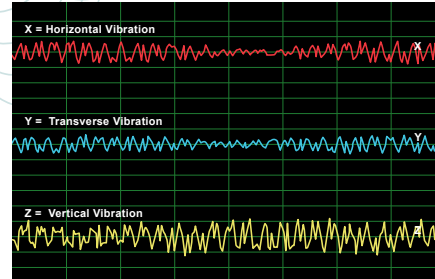

Another Master Spas Exclusive

Less Noise = More Relaxing

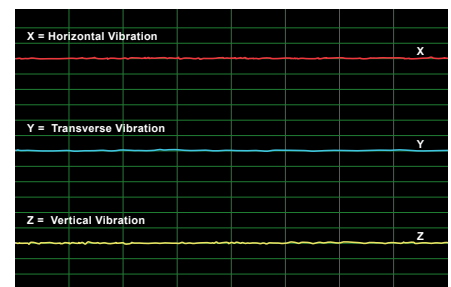

The little things in life make such a big difference for us. It could be the smile of a young child at the end of a long day or maybe it's the fact you hit all the green lights on your morning commute. One thing that's been more difficult to find in these busy times is a quiet, relaxing place to rejuvenate yourself. At Master Spas, we've been building Ultimate Relaxation Machines for over 30 years and relaxing hundreds of thousands of happy Master Spas owners. New for 2014, the most relaxing spas in the world just got even better with our exclusive Noise Reduction System (NRS).

The NRS is a result of advanced engineering innovation that reduces pump and motor vibration by 150% over the industry standard mounting system making it even easier to find your quiet place.

With the exclusive Noise Reduction System from Master Spas, if you listen close enough...you won't hear it.

Industry Standard

Master Spas Noise Reduction System

The heart of Master Spas Noise Reduction System (NRS) is the unique motor mount developed by Master Spas world class engineers and our industry leading suppliers. The NRS is featured on Pump 1 on every Michael Phelps Swim Spa, H2X Swim Spa, Michael Phelps Legend Series, Twilight Series, and Healthy Living Hot Tub.

Enjoy better quality YOU time.
Enjoy better quality FAMILY time.
Enjoy better QUIET time.
